

# IS YOUR HOME GIVING THE RIGHT IMPRESSION?

Follow these basic  
guidelines to ensure it is!

- Cut grass to a height of 6 inches or less
- Keep weeds, vines and other vegetation well maintained

*See other side for information regarding Auburn City  
Code Title 8, Chapter 8.20 Vegetation Management*

CITY OF  
**AUBURN**  
WASHINGTON

The City of Auburn has a number of City Codes and ordinances that set minimum standards and help our city run smoothly. Ordinances such as these set the standards that keep our community safe, and make it a desirable place to live and do business. In order to achieve these standards, we need your help. Auburn City Code 8.20 addresses vegetation management around your home. This City ordinance limits the height of grass to 6 inches and requires that weeds, vines and other vegetation be well maintained. Unmaintained vegetation attracts criminal activity because it appears the home is vacant. Overgrown vegetation can also harbor rodents.

If your property is in need of routine maintenance, please ensure that the vegetation on your property is in compliance with the above stated code.

City staff conduct routine inspections throughout the City to note the condition of vegetation and we thank you in advance for your cooperation. We take pride in knowing that by working together, we can help maintain property values, improve the quality of our neighborhoods, and preserve Auburn as a city we are proud to call home.

If you have questions or observe a property that you believe is in violation and want to make a report, call 253-931-3020 and select # 4, or visit our website: [AuburnWa.gov/CodeCompliance](http://AuburnWa.gov/CodeCompliance)
